Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

And so I would love to see a situation where physicians who have been willing to step up are in fact re-warded for doing so and not at risk for things going on a website about their information because they were - Chairman A. The first to stick their head up KIN Ms. M. Exactly. Exactly. AGRUDER KIN Chairman A. Okay. Sounds good. Dr. N. Personally my experience has been, you know this ORMILE technology really is almost there to the point where it is a break even situation for me. I think it still has a ways to go. Chairman A. Okay. Anybody want to comment on the second KIN part of the question about the privacy of information transmitted Is that a problem or is that no sweat Mr. P. No. It is a problem. It is a problem in the sense that RICE organizations are very aware of what they need to do to protect that information. And, in fact, some of that has driven the way some RHIOs have designed their architecture so that information is not resident in anyone, let us say, database and that you have processes that can go out through secure networks and be able to pull information from these different locations where a patient may have been at some point in time. So it is at the forefront of every organization in terms of address-ing security, internally and externally. Chairman A. Are you saying that that is being built into a KIN lot of the programs in the systems design...
