

Faster, Higher, Smarter: Bright Ideas That Transformed Sports

By Simon Shapiro

Annick Press Ltd, Canada, 2016. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book. What do athletes and rocket scientists have in common? It takes a lot of talent, skill, and hard work to become a world-class athlete. But it takes even more to make a sport better: it takes smarts! And whether innovators are aware of it or not, it takes an understanding of physics, mechanics, and aerodynamics to come up with better techniques and equipment. From swimming, soccer, and basketball to skateboarding and wheelchair sports, Faster, Higher, Smarter looks at the hard science behind many inventions and improvements in sports. Readers will find out how the introduction of the aluminum bat changed baseball; how a slapshot works, and what's involved in bending a ball like Beckham. It also covers the history of such milestones as the introduction of diversity, disabled athletes, and women in sport. Entertaining, informative, and highly visual, this book is the perfect way to introduce scientific concepts to kids who love sports.
