Reviews

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

The buildings primarily projected, including landscape improvements, were contracted for at a saving of about \$2,500,000 from the architects estimates, but the growing necessities of the enterprise required the erection of others not at first contemplated at a cost of about \$1,900,000. The total floor space of the great Exposition buildings (not including the foreign, State or special buildings) is 6,320,000 square feet or 155 acres. For the protection of these buildings and their contents, and to supply fountains and all the daily requirements within the grounds, the management provided for a possible supply of 64,000,000 gallons of water daily, which is carried through twenty miles of mains from six inches to three feet in diameter. For supplying power for machinery, etc., the management provided for boilers having a water evaporating capacity equal to 25,000 horse-power and engines for generating electricity, 18,000 horse-power for driving line shafting and isolated exhibits, 2,000 horse-power; for compressed air, 3,000 horsepower, and for pumps 2,000 horse-power. Electrical force is supplied as power to the amount of 3,000 horse-power. The system of sewage projected is extensive and complete. The arrangements are made for the treatment of 6,000,000 gallons of sewage every twenty-four hours, the precipitated matter of which is burned and only clear water allowed to escape. 16 candle-power each. The electric lighting cost something like \$1,500,000 and is ten times as extensive as was employed at the Paris Exposition. The light and motive plant at the Exposition require...
